SCHOOL ISSUES WIN BY BIG VOTE

BUILDING PROPOSITION CARRIED BY 570 FOR TO 138 AGAINST.

TOTAL VOTE CAST 729

Work to Start as Soon as Possible on New $75,000 Addition to Central School Building.

The $75,000 bond issue for an addition to the Central School building as well as all of the school levies carried by a big vote at yesterday's school election. There were twice as many votes cast against the building proposition than the levies. The following was the vote:

For levy of six mills, 632; against 69.

For levy of two and one-half mills for repairing and furnishing buildings, 620, against 79.

For building bonds, 570; against 138.

School Directors—L. E. Carpenter, 722; E. L. Williams 722.

The total number of votes cast was 729.

Many friends of the schools as well as the school boys were busily at work during the afternoon helping all they could to carry these propositions.

The school board will meet Friday night to canvass the vote and to reorganize. They are to get busy at once and expect to have work started on the new addition to the building by summer.

PARTY MUST GIVE REED FREE REIN IF HE IS SENT TO FRISCO

Senator Reed Declares He Will not Accept Delegateship to National Meet If He Is Bound by Instructions.

Under no circumstances will Senator James A. Reed accept election as a delegate-at-large from Missouri to the Democratic national convention if he is bound by instructions to support the League of Nations.

A statement to this effect was released simultaneously last night in Kansas City and St. Louis. Mr. Reed also declared that he would not seek to influence the Democratic convention at Joplin in the selection of the Democratic delegation at-large.

Senator Reed says: "I only desire to add, and I do so with the greatest respect, that under no circumstances could I accept the position as delegate-at-large if bound by instructions to support the League of Nations. That question has been declared by no less a person than the President to be non-political. It was my sworn duty as a senator to refuse to advise or consent to this treaty unless I believed it to be in the interest of the United States. At the end of months of patient study and investigation I am convinced that it imperils the very independence of the republic. So believing, I could under no circumstances vote for a platform resolution endorsing the treaty. However, if the convention sees fit to send me as a delegate, with liberty of action upon the treaty, I shall regard it as a high honor."

ELMO ELECTS TOWN BOARD OF WOMEN

FEMININITY TO ADMINISTER AFFAIRS FOR COMING YEAR.

FIRST BOARD IN COUNTY

Misses Lamar, Bucker, Humphrey, Campbell and Bever Now Composed Council. School Levy Carries.

Five charming and attractive unmarried women will administer the town affairs of Elmo during the coming year. Before the result of the election was fairly verified, the price of town lots had airplaned into the blue and options on business houses were at a hundred percent premium.

For the first time in the history of Nodaway county a town board composed entirely of women has been elected. The election was a surprise to the young women themselves as none knew their names were to be submitted as candidates.

Rumore of a "coup de tate" to be sprung on the male voters were whispered around previously to the election. The young women candidates were the most surprised but have accepted the honors thrust upon them. The newly elected town board is composed of Miss Cora Lamar, Miss Minnie Humphrey, Miss Nettie Bever, Miss Elizabeth Bucker and Miss Rose Campbell.

Both tickets were non-partisan. The women's names were submitted at the last minute before election and the feminine ticket carried over the men's ticket by a vote of three to one.

Elmo wants to have a cleaner, finer, and more up-to-date town and the citizens took what they considered the quickest and surest method, placing its affairs in the hands of a party of its most capable young women.

The additional 60 cent school levy and a special one hundred cent levy for a building and indebtedness fund, which was also voted upon yesterday at Elmo carried by a practically unanimous vote. The members of the school board chosen yesterday were W. C. Aldrich, D. D. Hudgins and Z. R. Alexander, who were re-elected to their offices.

ORATORICAL PRELIMINARY CONTESTS HELD AT H. S.

First Try-outs in Declamatory, Oratorical and Extemporaneous Speaking. Winners Announced

Six high school girls have qualified for the final preliminary in the girls declamatory contest to be held at the High school Friday night of next week. These six selected from twenty-four aspirants are Irene Lowry, Alice McMurray, Ruth Bookman, Persis Hunt, Evelyn Raines and Jennie Carey.

The first preliminary in extemporaneous speaking was held this morning and those qualifying were Chilton Robinson, Ora McPherron and Donald Williams in the boys class and Lorean Fenton, Marie Cloud and Lillian Hall in the girls class.

These contestants together with Perry Edas, Robert Tebow and Robert Nicholas, winners of the oratorical first preliminary, will enter the final High school contest Friday night for representation in the sub-district contest.

The winner of the sub district honors will contest for the Northwest Missouri associations honors on April 30.

The school board will award medals to the winners of the High school honors next Friday night.

NODAWAY LAND SELLS FOR $1000 PER ACRE

High Price for Unimproved Nodaway County Land Reaches Peak in Sale of Dr. J. E. Pierpoint Tract.

The high price record was broken this morning on the Nodaway county farm land when theDr. J. E. Pierpoint five acre tract northeast of Skidmore was sold to J. R. Jones for $1000 per acre. This tract adjoins the city limits of Skidmore and practically has no improvements. Mr. Jones expects to erect a handsome home on the place and make Skidmore his residence in future. The deal was made through the Linville Real Estate company of Skidmore. Another high priced realty transfer was recently made at Skidmore when J. O. Miller purchased the 20 acre tract of Mrs. R. A. Skidmore, paying $15,000 of $750 per acre.

LIBRARY FINANCES IN GOOD SHAPE

HEAVY INCREASE OVER LAST YEAR IN AMOUNT RECEIVED.

7307 BOOKS ON HAND

1705 Readers Cards Being Used With an Average Attendance of 40 in Reading Rooms Daily.

The financial statement of the Maryville free public library for the year ending March 31, 1920, shows a balance on hand $1594.04, which is considerably in excess of the balance on haud at the close of the previous year. The greater part of this is due to amount of taxes collected and some to the division of expense of heat and janitor service occasioned by the establishment of the city hall in connection with the liberary.

The balance on hand April 1, 1919 was $1170.13 and the total amount received for the year was $2177.43, making a total of money for the year of $3647.66, with a total disbursement of $2053.62.

Some interesting figures are shown in the compilation of statistics in the report. During the year there has been a total of 11,957 books loaned. Of these 3,681 were juvenile books and the remaining 8,276 were reference, fiction, classic and historic books. The total number of magazines loaned for the year was 1,035.

The present number of books in the library is 7307. One hundred and sixty-six books were acquired during the year, 45 of them being donated and 121 purchased by the board. The total number of government documents, emphlets, etc., in the library is 1391.

The number of magazines in use in the rooms is 60, city newspaper 8; local newspapers 8; the total number of magazines loan duting the year was 1035.

At the present time there are 1705 readers cards out and there has been an average number of 40 readers daily in the reading rooms.

The financial report is as follows:

Collections — Miscellaneous $13.02; fines $112.93; One cent a day 40.42; Total amount collected $166.37; Total amount of taxes collected $2311.16; bank balance April 1st, 1919 1170.13; total 3647.66; total amount of disbursements 2053.62; balance April 1st, 1920 $1594..94.

Disbursements—Miscellaneous $56.07; librarian's supplies $23.51; Janitor's supplies $15.78; repairs $13.22; insurance 73.95; salary $1305.00; heat $42.25; light $73.51; books 99.66; periodicals $331.67; total amount of disbursements $2053.62.

CITY REPORTS SHOW FINANCIAL GAIN

ONE YEAR UNDER COMMISSION FORM OF GOVERNMENT CLOSES.

EMPLOYEES REAPPOINTED

Tax Collections Show Saving of $600 to City for Last Year. Librarians Report Approved.

A year's administration under the commission form of government was concluded April 1, and the reports of the various departments were given in last night at the regular meeting of the board of commissioners. That the commission form has been very much of a success is evidenced in practically every department.

One of the largest financial gains is shown in the city tax collector's report for the year 1919. Under the former plan, a collector at the former renumeration of 2 per cent on collections would have been paid over $600. The commission form places this work in the hands of the city manager and clerk who collected all city taxes at an additional expense of $75 for extra help during the busiest weeks.

Taxes not collected:

Reeal Estate	$790.06
Merchants	106.64
Personal	150.44
	$1,047.14

The collector's report and that of the city library was the only ones of the various administrative departments approved and filed at the meeting last night. The remainder of the reports will be taken up at an adjourned meeting of the board to be held tonight.

Miss Grace Laugan, librarian and Miss Kitty Grems, assistant, were re employed for the coming year at an increased salary. Prof. L. E. Zeigler was appointed a member of the city library board in the place of Prof. J. M. McDonald, who resigned on account of leaving the city in June. The other members of the board are Prof C. A. Hawkins and C. Edwin Wells, librarian of the State Teachers college.

Other city employes appointed last night were George Wallace, night police; Joe Chappel, sexton of city cemetery; W. L. Johnson, police judge and J. F. Harvey, city attorney. Miss Vada Foland was also retained as city clerk. All the above employees were re-employed for this year. The appointment of day marshall and fire driver will be made tonight.

The monthly report of Police Judge W. L. Johnson for March was also given showing $7 in fines for the month.

The total collection of taxes for the year was more complete than any previous year, only $1047.14 being due on the city tax books April 1. Nearly two thousand dollars back taxes were also collected.

The full report of the city collector follows:

Collections for year 1919:—

Real Estate	$19,611.78
Merchants	1,920.24
Bank	4,553.08
Personal	5,353.74
	$31,438.84
Back taxes collected	1,980.21
Total	$33,419.05

Case of Vera Stokes Dearing For Her Child Up Today.

The case of Vera Stokes Dearing who is seeking possession of her 8-year-old daughter, was still up in circuit court today and at press time this afternoon the attorneys were arguing the case before Judge Dawson. The case came here on a change of venue from Holt County.

A divorce was granted Anna M. Geiger from George Geiger in circuit court today. The plaintiff also had her maiden name restored to her.

LIGHT CO. RATE PLAN APPROVED BY COMMISSION.

Manager C. C. Hellmers of the Electric Light & Power Company received word today that the public service commission had adopted the tentative schedule of rates for lighting as filed by the company with the commission last December during the coal shortage. The company here wanted the commission to adjust the rates so as they could make six per cent on their investment and could allow a depreciation of five per cent, and it is probable that another effort will be made by the company to get the commission to make such rates.

MRS. J. B. SHINABARGAR DEAD —RESIDENT HERE 47 YEARS

Dies at Family Home South of Maryville. Funeral Arrangements to Be Announced Later.

Mrs. J. B. Shinabarger died at 1 o'clock this morning at the family home eight miles southwest of Maryville from a complication of diseases. Mrs. Shinabarger was 70 years old and had been in poor health for some time but had been serious only a few days before her death.

Mrs. Shinabarger has lived in Nodaway county since 1873. She was born in Boyle county, Kentucky near Danville, on December 13, 1849. She came to Missouri in 1873 and was married on July 20, of the same year. She united with the Christian church at Perryville, Ky., in June 2, 1870 and in July 1880 she changed to the Pleasant Grove church near which she lived and later changed to the Methodist church, South in Maryville.

Besides her husband, Mrs. Shinabarger is survived by one daughter Miss Rose Shinabarger and one son Elmer, both at home. One child died in infancy and one son, Mirton, died in 1899.

Funeral arrangements for Mrs. Shinabarger have not been made but will probably be held Friday or Sunday. Complete arrangements will be announced later.

11-YEAR OLD BOY HANGS HIMSELF

COMMITS SUICIDE IN FIT ANGER FOLLOWING REPRIMAND

PUNISHED BY FATHER

Was Son of Mr. and Mrs. George Walker, Living Northeast of Burlington Junction.

In a fit of anger following a punishment given by his father, Dee Walker an eleven year boy, the son of Mr. and Mrs. George Walker, living northeast of Burlington Junction, committed suicide yesterday afternoon by hanging himself to a rafter in the implement shed. The boy had been dead about half an hour when found by members of the family.

During the afternoon Mrs. Walker accompanied by Dee who was the eldest of the family, and two younger children, went to the home of a neighbor to visit. While there the children got into an altercation and the mother told them she would inform the father of their misconduct On arrival home, the father punished all the children. The older boy became very much incensed at his father for the reprimand and theatened to kill himself.

Later he was missed and was found dead in the implement shed. The boy had stood on a box fastened a small rope around his neck and to the beam above and then kicked the box from under him. His neck was broken in the fall. Dr. Cossins of Burlington Junction was summoned and later the county coroner, who held a view inquest only.

There are five other children in the Walker family. The funeral services will be held tomorrow afternoon at the Workman chapel church, north of Burlington Junction.

Mrs. Warren Injured.

SCHOOL LEVY VOTE CARRIES IN COUNTY

WILCOX ONLY DISTRICT REPORTING DEFEAT OF PROPOSITION.

SKIDMORE VOTES $2 LEVY

Town Elections Held in Many Places Bond Issue for School Addition Lost at Parnell.

The additional school levy voted upon yesterday carried in every district in the county reported today except at Wilcox where a proposition to vote an 85 cents levy was defeated by a vote of 76 against to 59 in favor.

At Skidmore a proposition for a $2.00 levy, the heaviest in any district in the county, carried by practically a unanimous vote and a proposition for a nine months school term also carried.

Town elections were held at Elmo, Ravenwood, Parnell, Skidmore and Barnard.

At Skidmore, W. T. Reynolds, Democrat, won over his Republican opponent by one vote in the mayoralty race. William Charles and Wyman McGinness were elected aldermen and Mark Loucks, B. O. Ford and M. A. Sewell, members of the school board.

At Parnell, the proposition for a $25,500 bond issue, for the purpose of building an addition to the present school building, was defeated by a vote of 117 to 96. Two new members of the school board elected were James La Favor and John Hovencotter. Perry Hood and Charles Bishop were elected to the town board, Emmett Herndon, marshal and Ben Seyster, collector.

Only six votes were cast against the school levy proposition at Barnard. On the town ticket, J. P. Gorsuch, Elba L. Hagan, Roy Dane, Fred R. Stalling and Elmer F. Smith, were elected for councilmen, with Gorsuch to serve as mayor and chairman of the board. The school directors elected were S. J. Smith and J. C. Curnutt, for a three-year term and R. E. Cook to fill out the unexpired term of William Woodhead, deceased. Smith and Curnutt were both re-elected to their positions on the board which they have filled for the past fifteen years.

Four new members were elected on the Ravenwood school board yesterday. They are Howard Beedle and William Wygal for three-year terms, and Judd Henry and Earl Heflin for a two-year term. The town board elected was Henry McMullin, Dr. D. O. Hunterson, Frank Loch, John Kirkbride and Mark Bentley.

In addition to the vote on a 100 cent levy for school purposes and a 25 cent levy for supplies and furnishing, Ravenwood voted to furnish free text books for the first four grades in the schools.

Two new members of the school board were chosen at Wilcox. They were Bea Booher and W. M. Golding.

Elmo voted a $2.00 school levy yesterday.

GERMANS PROTEST AGAINST ENTRANCE OF FRENCH TROOPS

Chicago, April 7—The strike of switchmen of eleven railroads became more serious today when 8,500 engineers and firemen defying the national heads of their union prepared to join the walkout and makes the total number of men on strike to 25,000. It means the movement of freight on every trunk belt line entering the city will be completely paralyzed within a few hours.

It is reported here the trouble is rapidly extending to Buffalo, St. Louis Milwaukee and other cities where insurgent unions are being formed apparently to break away from the control of the big railroad brotherhoods and participate a strike in the fashion of the Chicago walkout. It is stated by railroad officials and other observers inclined to the belief the industrial workers of the world tactics if not that organization itself is behind the trouble.

MEN SHOULD DRESS BETTER, WOMEN SAY

BRITISH WOMEN BELIEVE MEN SHOULD SPEND MORE.

INDICATION OF SUCCESS

Writer Declares Just Division Would Allow Wife Twice as Much as Husband.

London, April 3.—Should a husband spend more or less than his wife on clothes?

Prominent London women believe women should spend less, while the opinion among British men is divided.

Lady Beecham, wife of the operatic producer, says a wife should spend less, because she has opportunity of making many pretty articles of clothing for herself.

"There are few men today who spend enough on clothes," says Lady Beecham. "Though all nature loves brightness, the average man is a darb looking object. Men are often responsible for some of the most beautiful creations in feminine attire. I believe it to be really urgent that they should spend more money on their clothes and dress better and more picturesquely."

The Marchioness of Townsend believes women should not spend so much on their dress, for "far too many of them depend entirely on their clothes to provide their attractiveness instead of upon character. A husband should spend no more than to insure his being neat. This should also be the wife's standard."

Miss Bessie Ascough, fashion artist, says a man should spend at least as much as a woman on clothes because a woman can "effect many little economies in dress and not sacrifice anything in appearance. But let a man even begin to economize on his clothes and tell-tale signs of darbness appear."

Sir Alfred Yeo, M. P., is chivalrous, saying: "Women have many more virtues than man. Therefore they deserve to be better decorated."

George R. Sims, author, says a husband is justified in spending more for clothes than his wife who stays at home more.

"A woman," he says, can and does knit a jumper. But a husband cannot interview clients and walk about town in an overcoat made by himself. Yet every time the fashion changes the husband pays the piper to please his wife. Fashions are tyrannical, and a woman's dress bills constant—and altogether to heavy—as compared with a man's. A man shows much better taste in dress than a woman, whose bills are heavy because she dresses to annoy female acquaintances."

Charles Garvice, another author, declares any woman is entitled to spend more on clothes than her husband.

"A perfectly just division," Garvice points out, "would allow a wife at least twice as much money. Why? Because dress is a matter of self-respect to her. She must look well to do her husband credit. The husband should be well dressed because that is an indication of success. But he does not need to set as high a standard as his wife. All clothes have gone up in price, but women's clothing has advanced more than men's."

Sir Edward Cooper, Lord Mayor of London, and past middle age, who reflects conservative London, says:

"I spend very little on dress; I'm convinced women of today spend far too much. Men, I hope, will never take the extravagance of women-folk as a standard."

What Oil Husbandry Means to You

THE price of gasoline is high when compared to the price asked five years ago, but the price would be much higher if it were not for the long list of useful products made from that portion of the crude which is left after the gasoline and refined oils have been removed.

The Standard Oil Company (Indiana) makes a wide range of products from this residue — each product rendering a definite, useful service to mankind, and each bearing its share of the cost of production, thereby helping to keep down the price you pay for gasoline.

The petroleum chemists in the laboratories of the Standard Oil Company (Indiana) constantly are at work trying to develop new processes which will enable the Company to utilize every fraction of the crude oil, thus eliminating waste.

This means husbanding the country's resources by taking from the crude oil the maximum number of useful products, and recovering a maximum yield of each.

To do this is the constant aim of the Company.

FIND OUT JUST WHAT CAUSES YOUR RHEUMATISM

Then You Will Be Able to Treat It Intelligently.

The medical profession has not yet fully determined all of the causes of Rheumatism, though they are pretty well agreed on two points.

The first is, that the disease is more than a mere local trouble, that the pangs of pain come from a source that is far below the surface, and therefore it is not reasonable to expect any rational relief from a treatment that is locally applied and reaches only the surface.

When you realize the logic of this conclusion, you will see that you are really wasting your time and money if you are expecting any permanent relief from the use of liniments, lotions, and other locally applied treatment, which can only reach the surface, and have no effect whatever upon the origin of your trouble.

Any disease should be treated at its source, and especially one that causes as much suffering as Rheumatism. The only treatment worth while is one that will show progress toward getting at the source of the disease, and freeing the victim from its shackles.

The other point that the medical profession has agreed upon, is that some forms of Rheumatism are caused by a tiny disease germ in the blood, which multiplies by the million, and until these germs are routed from the blood, you can see how futile local treatment will be. In fact, you can use liniment by the gallon and never hope to reach the cause of your trouble.

So many people have found real permanent relief from their Rheumatism by the use of S. S. S. that its use is justified in practically every case. Certainly if your Rheumatism is due to a germ in the blood, as so many thousands of cases are, you should lose no time in beginning the use of S. S. S., because you can rely upon this fine old blood remedy to do you more good than any other treatment.

S. S. S. is beneficial in Rheumatism because it is such a thorough blood medicine. It cleanses the blood of all impurities, and eradicates the germs which cause Rheumatism. The wonderful results it has accomplished in other cases is proof of its great merit. S. S. S. has been on the market for more than fifty years and is sold by all druggists.

You are invited to write our medical department for full information and advice about the treatment of your own case, for which no charge is made. Address Chief Medical Adviser, 11 Swift Laboratory, Atlanta, Georgia.

FORMER PASTOR WRITES TRIBUTE TO GEO. DE MOTTE

In Last Week's Issue of His Church Bulletin, Rev. Harkness Writes Concerning "My Crippled Elder."

The Rev. Samuel D. Harkness, formerly pastor of the First Presbyterian Church of this city but now with the Immanuel Presbyterian Church of Kansas City, paid a tribute to the late George DeMotte, formerly county clerk of this county. The Rev. Mr. Harkness had the following in last week's bulletin of his church under the heading "My Crippled Elder."

"George DeMotte was the littlest, biggest man I have ever known. A terrible sickness in boyhood had precluded further physical development when he was 14 years of age. Both legs were ruthlessly warped so that he had to go on crutches, but those crutches stood in the hallway of the Church, when the umbrellas of stout and hearty men and women were dry in the racks at home, because their owners thought it was too stormy to venture out. One winter night, I sat in the prayer meeting room alone, sure that no one would come on such a night, for a blizzard had heaped the snow over the street and walk alike. I was just leaving the room, when I heard the tap tap of crutches outside. I ran to the door and helped him in and said, half angry and half amused, "George, if you had more sense and less religion, you'd be better off." He used to tell that with great glee.

"The Kingdom was all in all to him. His thought, his service, his prayers and his money were all on the altar. He is one of the two men I have ministered to, I have attempted to discourage in the amount of their giving. I saaid to him, "George, you are giving too heavily in proportion to the other men in the Church." and he answered, "I am not accountable to Christ for what they do, and when I think of Him on the cross, I cannot give except on a sacrificial basis."

"He was county clerk in a Missouri Democratic stronghold, and when Bryan headed the ticket the last time, George got more votes than the Commoner. This was always referred to as a nine days' wonder in Nodaway. He was keen, witty, philosophical in the homely philosophy of poverty and pain, and what philosophy is so true and so deep? He knew how to swing men, because they loved and trusted him. He would never let anybody pity him. He gloried in his tribulation. He was in constant pain and wore a constant smile.

"I shall never forget one night as we were walking home together after prayer meeting. My wife had taken our second boy to Chicago for a difficult operation which had been performed that afternoon. I was wild with anxiety, and bared my heart to him. We had come to his door and stood there for a moment in silence. Then he reached up and patted my cheek and said, "Tomorrow morning you will hear from Mrs. Harkness that all is right for John, because I am going to pray all night for him." I walked down the street with a sense of awe and comfort that I have seldom felt. He was right, and later his wife told me that he read his bible and prayed all night for his pastor's baby.

"If George had lived in the days of the Apostles, his life would have run like a golden thread through their fabric. But I am glad that God spreads his saints out over the lives of all generations.

"He has been in Heaven for years. I remember how he smiled when he caught his first glimpse of the everlasting hills." Their glory seemed to light his face, as he left us and went toward them — without his crutches."

Masonic Lodge Formed by A. E. F. Men at Coblenz.

Providence, R. I., April 5.—Overseas Lodge of Masons, formed in Coblenz, Germany, by officers and men of the A. E. F. soon after the signing of the armistice, is soon to receive full charter rights from the Rhode Island Grand Lodge.

Overseas Lodge has the distinction of being the only regularly organized Masonic lodge that worked degrees in full ritualistic form in Europe. It was chartered under the dispensation of E. Tudor Gross, Grand Master of this State. The lodge had a member-

ship of more than 500 before the charter was returned to this country. Major Winfield S. Solomon is worshipful master of Overseas Lodge. Masonic circles all over the country have followed the growth of the lodge.

The fastest day's run ever made by a passenger ship on the Atlantic Ocean was accomplished in January, 1911, when the Mauretania made 676 Knots, or 27.04 Knots per hour.

The House of Commons of the British Parliament consists of 707 members, the Coalitionists dominating with a total of 471 members.

WORLD UNION OF TAILORS PLANNED AT JUNE CONFERENCE

Organization Will Try to Abolish Sweat Shops in All Countries. World Meet at Copenhagen.

New York, April 5.—The needle is mightier than the pen.

A tailor "League of Nations," for the elimination of European "sweat-shops" and promulgation of child labor laws throughout the world, is now being formed according to President Benjamin Schlesinger, of the International Ladies' Garment Workers' Union. He has just returned from a three months' tour of European capitals where he conferred with garment union leaders on the organization of a world-wide internationale.

"The 'league' will be formally organized at a conference at Copenhagen in June, to which tailors and garment makers of every civilized nation will be invited," said President Schlesinger. "The convention at Amsterdam last month laid plans for this world union. Its efforts will be directed toward solving the financial difficulties of local unions in the nations which were devastated by the world war."

Modern machinery and large well-ventilated factories are practically unknown in the garment industry abroad he said. "I found horrible 'sweat-shop' in Paris, Berlin, Vienna and Warsaw. Our "league will halt this menace to the health of workers," he added. "The most expensive garments coming from Paris are made by children and old women, either in a tiny hovel of a home or in a 'garret or cellar factory.'"

Touching on the international political situation he said Germany would be compelled to recognize the Soviet Government of Russia in defiance of the Allies if she wished to save herself from complete annihilation. "Germany faces a foal collapse unless she is permitted to trade with Russia," he coontinued. "Poland has the same situation on a lesser scale."

WOMEN PREPARING FOR PARTICIPATION IN AFFAIRS

Will Vote for President in Missouri and Are to Attend Conventions.

Failure of Delaware to ratify the federal suffrage amendment will not stop the activities of local suffragists in organizing women for work in the coming political campaigns.

"Why organize without full suffrage?" is the question the women have been asked on all sides.

Women of Missouri already have presidential suffrage and will vote in the presidential election in November, regardless of what action is taken concerning the suffrage amendment.

Moreover, women have been accorded representation on the state, county and city committees of the two parties and will have a part in the township, state and national conventions, going as delegates to each gathering.

Women of both parties are making every effort to get women of their respective faiths throughout the state to join party organization that they may be prepared to vote when election time comes. The Missouri League of Women Voters, a neutral organization, also is urging the women to join their respective parties and learn all they can about party politics. Suffragists are conducting citizenship schools throughout the state to prepare the women for their new duties.

The suffragists also are confident that the women of Missouri will have full suffrage within a short time. If Delaware does not ratify, some other state will, they assert. In case the feredal amendment is ratified soon, they believe Governor Gardner will call a special session of the legislature to amend the election laws so that women may participate in the August elections for the state and county officers.

On June 30, 1919, there were 67,424 factories, employing 1,384,888 persons, in New York State.

The State of Connecticut derives its name from the old Indian name "Quonecktucut," meaning Long River, or River of Pines.

BIFF!

Stop jolting Liver and Bowels with violent drugs, but take "Cascarets."

"Dynamiting" bile out of your system with calomel and other sickening purgatives is all wrong. Salts, Oil and Cathartic Waters act by flooding the bowels with the digestive juices which are vital to the stomach. Cascarets are different. They act as a tonic to the bowel muscles, which is the only sensible way to relieve a bilious attack, a sour, acid stomach, or constipated bowels. There is no griping or inconvenience. You naturally return to regularity and cheerfulness. Cascarets cost very little and they work while you sleep.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the *real* cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.

THE BEST ON EARTH

Says Mrs. Staples of Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude to it."—Mrs. SUSAN C. STAPLES, 157 B School St., Taunton, Mass.

The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness.

It has relieved women from some of the worst forms of female ills, such as displacements, inflammation, and ulceration. Why don't you try it?

FRACTIOUS BABE WELL NAMED

Wearied Parent Takes Time From Task of Walking the Floor to Make a Little Joke.

The scene was a bedroom in a suburb, and a wearied parent was promenading the floor at a weird hour of the early morn, with his first-born in his arms. Many vain endeavors to soothe the infant's cries had been made; but the little one was laboring under an impression that things needed waking up, and that he was the person to do it.

"It seems to me you knew what you were about," groaned Picklebury to his wife, "when you insisted upon the child being called 'Hugh.'"

"What has his name to do with his fretfulness?" asked the unsuspicious wife.

"Everything!" replied the wretched man. "You would call him 'Hugh,' you know, and where there's a hue there's always a cry!"

DEVICE THAT ABSORBS SHOCK

Invention Patented in England, It Is Claimed, Makes Solid Tires as Good as Pneumatic.

The shock absorber hub of J. John Muir, for which a British patent extension has been sought on account of war neglect of the invention, consists of a loose ring of steel balls giving the axle a close approach to a liquid bearing. Its use is stated to make solid tires as good as pneumatic, and is expected to reduce the running cost of vehicles, and contribute to economy in road construction and maintenance. An annular chamber between the hub proper and the body of the wheel is nearly—but not quite—filled with the balls. With the vehicle at rest, the balls at the bottom of the chamber support the hub; but when in motion, centrifugal action distributes the balls around the annular space, their symmetry being displaced by any upward movement due to jolt or road shock. The greater part of the shock is absorbed by the change of motion of the balls. The London Omnibus company reports a year's satisfactory test of this shock shifter. The device has been curiously overlooked in the land of its origin, but it was found to have been adopted in some German artillery wagons captured during the war.

Many Varieties of Climate.

About 50 different climates are distinguished in the revised classification of W. Koppen. These are contained in three main temperature zones—tropical, temperate, and frigid, or megathermic, mesothermic, and microthermic; and two minor rainless zones, hot desert and cold desert. Besides 11 principal climates there are many others that are secondary or transitional. The principal climates are—tropical, forest, savanna, steppe, desert, temperate with dry winter, temperate with dry summer, temperate humid, cold with wet winter, cold with dry winter, tundra, and perpetual ice. By the use of two or three letters, each important place on the map is so indexed as to show its climate at a glance.

Reindeer Future Meat Supply.

The "frozen North" is today an exploded myth. It was exploded recently by Vihjalmur Stefaussen, the Arctic explorer, at the winter camp dinner of the Camp Fire club of America, New York, in an address in which Mr. Stefaussen stated that the future ment market of the world would be the far North. He asserted that within a few years the northern portion of Alaska would be producing and supporting approximately 5,000,000 reindeer to take the place of the world's vanishing supply of beef.

Russian Divorces Easy.

Russians who have arrived in Geneva recently by way of Sweden and Germany say a former minister of justice, Spitzberg, has been installed in Petrograd as "breaker of marriages." He is said to be granting from 500 to 600 divorces a week, no investigation being necessary. All that appears to be required is the signature of the person desiring freedom from matrimony.

Small Change for Provisions.

Mrs. Witherleigh—Have you any loose change? I'm going out to buy some groceries.

Mr. Witherleigh—Here are some pound notes. They are all the small change I happen to have.—London Answers.

No Slums in Spokane.

Spokane, Wash., is said to have no slums, and, in proportion to its population, has the largest park area of any city in the United States.

Natural Action.

"Every time a girl loks hard at me I jump."

"Why?"

"Because this is leap year."

Millions in Diamonds.

It is reported that diamonds came into the United States last summer at the rate of $7,000,000 worth a month.

REHEARSALS OF AMERICAN LEGION PLAY BEGIN TONIGHT

The first rehearsal of the American Legion post home talent play "Johnny Get Your Gun" a big musical farce to be given Thursday and Friday night of next week, is to be held tonight. The manager, Edward Russell of New York City, and his publicity man arrived in the city Monday and have everything in readiness to begin practice and carry the production right along to a perfect presentation. All the cast is selected and the scenery and stage effects ordered. Mr. Russell, director of the play has been with the Klaw & Erlanger and Schubert productions and is now engaged in supervising plays given by and for the benefit of American Legion posts.

Teachers Are Receiving More.

The School Board of Education of Kansas City, Kan., has increased the salaries of its teachers for next year $420 for each teacher who is now at the maximum salary. It is possible that this amount may be increased as the teachers are asking for a raise of $600.

At a recent meeting of the teachers of the rural schools of Wyandotte County, Kan., it was decided that no teachers would accept a position in the rural schools for less than $85 per month or $680 per year. Some of the most successful teachers of the county are asking $175 per month or $1500 per year.

Reports are being received showing very substantial increases in the salaries of teachers in many cities and towns all over the United States. It is not at all unusual to find reported increases of $300, $400, $500, per teacher, and occasional increases of $500 and $700 are found. Per cent increases of 25, 30, 33 1-2, and 40 are very frequent, and occasional increases of 50 per cent or more are made.

The University of Iowa in co-operation with the Bureau of Education, Washington, D. C., has made a study of the salaries of 4,270 teachers in towns and cities of Iowa. This study reveals the fact that the median salaries of grade teachers in towns of $10,000 or more population of Iowa at present is $1145 and that the median salary of teachers in the grade schools in cities of 1,500 to 10,000 population is $800. This means that in Iowa one-half of all the grade teachers in towns of 1,500 to 10,000 population are receiving more than $800 per year. The median salary of all grade teachers in the cities of Iowa is $889. This report calls attention to the fact that $1140 now is equal to about $500 in 1912-13. It states that the increase in salaries of teachers in Iowa has lagged far behind the increase in the cost of living.

Reports from twenty cities in Ia., on their proposed salaries for 1920-21 show increases of from 20 to 40 per cent over the present salaries and these were, in most cases, substantially increased last year. The reports indicate that very few teachers will be employed in the grades in the cities of Iowa next year for less than $1000 per year and many of the teachers in the larger cities will receive $1200 to $1500.

Sneezing Induces Proper Breathing.

By popularizing the sneezing drill among all children, Dr. Octavia Lewin, nasal specialist, would eliminate consumption in a single generation. In her London classes, the pupil's upper lip is smeared gently with a white powder that is chiefly soap, tissue-paper handkerchiefs are distributed, and competition begins in the effort to sneeze first and best. The purpose is to open the nostrils, permitting proper breathing. The breathing exercises follow, and the total results are declared to be a cure of various nasal troubles. After a few lessons the children continue correct breathing at home, without effort.

Census Curiosities.

As usual, the census enumerators have discovered people who are distinguished for one odd reason or another. In Los Angeles, Cal., they found a negro woman 115 years old, who had been sold as a slave 15 times. In a small Massachusetts town they found a family of 11 children, each of whom was born in a different state in the Union.—Youth's Companion.

Paris, April 7—A protest from Germany against the occupation of the German cities by the French troops was handeed to Premier Millerand today. It referred to the French advance as "unwarrented aggression" and declared bloodshed was only avoided by order from Berlin for the German troops to retire before the French. It justifies the entry of the German government troops into the Ruhr district on the ground that conditions in that district were a menace to the peace of the whole country.

London, April 7—It is reported in Berlin that the French plan to occupy Essen, the scent of the great Krupp gun works, according to the Exchange Telegraph Berlin dispatch today.

Coblenz, April 7—Practically the entire Ruhr district in Germany has now been occupied by the German government troops according to report received at headquarters of the American army of occupation today and are said to be arresting scores of Red leaders.

Washington, April 7—The President today is carefully studying the situation created by the French occupation of German cities in the neutral zone. The attitude of the United States towards the action will be one of "watchful waiting" for a time at least, according to the views of the President.

KANSAS MINE WORKER LEADERS ARRESTED

Pittsburg, Kan., April 7—President Howat, Vice-President Dorchy, and Secretary Harvey of district 14 of the United Mine Workers of America were arrested here today, the warrant charging conspiracy against the Kansas Industrial Court. They refused to obey the subpoena issued by the Industrial Court and later the district court order commanding them to appear to testify in the coal investigation. Each were placed under a bond of $500.
